Under no circumstances may the match be delayed because of the late arrival of a team. In such a case, the CONMEBOL disciplinary bodies may apply the corresponding sanctions.

Article 94° - Digital line-up and tactical formation

Tactical formation: teams must submit their team's tactical formation to the match delegate/coordinator upon arrival at the match stadium, and in any case 90 minutes before the start of the match.

Digital line-up: teams must upload their line-up via the COMET system up to 90 minutes before the start of their match.

The system will be enabled for uploading the line-up from 8 (eight) hours before the start of the match in question. The line-up shall consist of:

- A maximum of 26 lined-up players (11 starters and up to 15 substitutes);
- A minimum of 7 lined-up players (starters);
- A minimum of 2 goalkeepers (starters and substitutes);
- One captain;
- A maximum of 11 officials/members of the coaching staff (depending on the number of players with a maximum of 34 people in the line-up sheet and 23 people in the substitutes benches); of which there must be a Head Coach, an assistant coach and a doctor.
Example: In the event that the AMP opts for 15 players on the substitute bench, up to 8 officials can be included in the lineup, of which there must be a head coach, an assistant coach, and a doctor.

The CONMEBOL Match Delegate will verify the line-up uploaded by each team through the COMET system, and then print the consolidated line-up to be signed by the Coach and Captain of each team.

§1° - The 11 players marked ‘T’ shall start the match, the others being designated as substitutes (‘S’). The numbers worn on the shirt and shorts must correspond to those indicated in the Squad List and must remain the same throughout the Competition.

§2° - Before each match, when the players and kit are checked in the dressing rooms, the players shall identify themselves to the Match Delegate and a member of the refereeing team, with their official accreditation. Exceptionally, CONMEBOL may request any other document that, in its opinion, allows the player’s identity, nationality and age to be verified.

§3° - If it is not possible to verify the identity of any of the players (starter or substitute) at the time of the players and kit check conducted by the Match
Delegate, this player (or players) may not be included in the line-up for the match and the team must produce an updated line-up immediately.

§4° - If any of the players marked as starters on the starting list is unable to start the match due to injury, he may be replaced before the start of the match by any of the eligible substitutes.
   i. For the substitution, the Match Delegate must be officially informed;
   ii. The team must submit a medical report to the Match Delegate in order to make the change;
   iii. The injured player (player being replaced) will be removed from the line-up sheet and will no longer be eligible for the match and, therefore, will no longer be able to participate in the match;
   iv. This replacement on the initial list of players will not reduce the number of official substitutions the team may make during the match (the team may make the full number of substitutions allowed);
   v. The injured player (player being replaced) may not sit on the substitutes' bench and is not eligible for doping control.

Article 95° - Player substitutions during the match shall be made in accordance with the IFAB Laws of the Game. Accordingly, a maximum of five (5) player substitutions will be permitted for each team, on up to three occasions.

Sole paragraph - In the event of extra time being played as provided for in Chapter 4 of these Regulations, each team shall be allowed one additional substitution and one additional substitution opportunity in accordance with the IFAB Laws of the Game, i.e. in total each team shall be allowed six substitutions in four substitution opportunities (one of which must be in extra time).

Article 96° - Substitution in the event of suspected cranioencephalic trauma and concussion:
   i. Up to 1 (one) substitution per team per match may be made for suspected head injury and concussion, independently of the 5 (five) substitutions mentioned in these Regulations in the preceding article (in case of extra time, six substitutions). The substitution for concussion may take place irrespective of the number of substitutions made up to the time it occurs.

   ii. If the team decides to carry out a substitution due to a concussion, the main referee or the fourth official shall be informed. For this substitution, a pink card will be used, different from the other substitution cards.

   iii. However, if a regular substitution is made at the same time as a concussion substitution, one substitution opportunity will be deducted. When a team has used all regular substitution opportunities, they will not be able to use a concussion substitution to make a regular substitution.

   iv. When a concussion substitution is made, the opposing team will automatically have the possibility to make one additional substitution. The main referee or the
fourth official will inform the opposing team that, from that moment on, they have the option to use an additional substitute and an additional substitution opportunity, which can be made simultaneously or following the concussion substitution made by the opposing team. This additional opportunity can only be used for one additional substitution, not for regular substitutions.

v. A player who suffers a concussion or is suspected to have suffered one, cannot return to the match nor participate in the penalty shootout, and, whenever possible, they will be accompanied to the dressing room or a medical center.

vi. Once the match is over (with a maximum of 24 hours after the end of the match), the doctor of the team that has detected this suspicion on the field of play and has or has not substituted the player, shall be obliged to send the completed and signed SCATS form (standardized tool for evaluating concussions) to the CONMEBOL medical committee, via the following e-mail address: comision.medica@conmebol.com.

Article 97º - A maximum of 23 people are authorized to remain on the substitutes' bench: 12 players and 11 officials, with the presence of a head coach, an assistant coach and a team doctor being mandatory. In the event that an AMP chooses to line-up 26 players - 11 on the field and 15 on the bench, the maximum number of officials allowed to be line-up should be 8, for example. It is worth noting that the maximum number of substitute players on the bench for each match is 15 players, and the minimum number of substitutes on the bench for each match is 7 players. All officials on the substitutes' bench must carry their accreditation and the relevant SAD. No persons other than those on the official match sheet may be present on the substitutes' bench or in the area around the bench, or at the entrances to the tunnels leading to the field of play. Before the start of the match, the match delegate checks that the number of substitutes matches the official match sheet and may demand that any persons not on the list are removed, and may inform the main referee.

§1º - All players on the substitutes' bench must wear the pinnies supplied by CONMEBOL.

§2º - A sent-off/suspended player or official is not permitted to remain in any area of the technical area. However, they may be in the stands of the stadium, without accessing the changing rooms before the match or during half-time. They may only go down to the dressing room at the end of the match. Players who have been sent off are eligible for doping control and must therefore report to the doping control room, except in cases where the selection of players for doping control is directed and the player has not been selected, or in cases where the player is sent off after 75 minutes of play and it is known that the player has not been selected for doping control. Players and officials sent off/suspended may not take part in any press activities at the stadium.

CONMEBOL shall be responsible for communicating the times of these sessions to the AMPs.

Article 100° - Up to seventeen (17) additional seats (technical seats), including one for the attaché (TLO), may be allocated in the stands or on the field of play level, as determined by CONMEBOL, to accredited officials providing technical assistance to the team during the match (e.g. assistant goalkeeper, assistant physiotherapist etc.). The personnel occupying such technical seats shall have access to the dressing rooms with a valid accreditation and the relevant SAD, issued by CONMEBOL.

Article 101° - No team official/member of a team’s technical staff may enter the field of play without the express permission of the match referee. Failure to comply with the provision shall imply a disciplinary infraction, for which the CONMEBOL disciplinary bodies are empowered to impose the sanctions that may be applicable in accordance with the CONMEBOL Disciplinary Code, subject to a report from the main referee and/or Match Delegate.

Article 102° - The official ball of the Competition shall be used in all matches and training sessions. The ball for this edition is of the Puma brand, model PUMA Cumbre CONMEBOL Copa America.

To this end, they shall follow all the indications for the timely entrance to the field of play, issued by the match delegate, in accordance with the countdown. Any delay in the start of the match or its restart because of the delay of one or more teams shall be subject to the sanctions provided for in the CONMEBOL Disciplinary Code and Chapter 16 of these Regulations.

§6° - Warming up on the field of play during half-time will be subject to the final decision of CONMEBOL to safeguard the best conditions of the pitch for the entire Competition. In the same vein, no post-match exercise or activation of any kind is permitted on the field of play.

Article 108° - The Match Delegate shall inform the pitch irrigation protocol for each match during the tournament coordination meeting, according to the conditions of the pitch and the weather conditions. The mixed zone will be in a place that CONMEBOL deems appropriate, ideally on the way between the exit of the dressing rooms and the team buses.

Article 113° - After the match, a press conference will be held for both teams. The press conference shall start as soon as possible (between 15 and 20 minutes after the end of the match or award ceremony, as the case may be), and shall be attended by the head coach of the team. The order of press conferences shall normally be as follows (in any case, the second press conference must begin immediately after the end of the first one):
